

REMARKS

This Amendment After Allowance is being filed to address typographical errors included in the Amendment filed on August 9, 2006 and to ensure correct printing of the patent. The page-19 replacement paragraph included in the prior Amendment recited "□V-seconds" instead of "μV-seconds," as recited in the original specification. Claim 9 in the prior Amendment failed to recite the equation included in original claim 9. Claims 1, 20 and 22 reflect the Examiner's amendments included in the Notice of Allowability.

Respectfully submitted,

17 JAN 2007
Date
